

# Bottled Water Quality Report

## Introduction

At VOSS, we are proud of the quality of our products. VOSS Water meets all bottled water standards for quality and safety at the U.S. Federal, State, and Norwegian standards. Our scientists and independent certified laboratories perform extensive tests on the water source and finished bottled water product to ensure we exceed or are compliant with all bottled water requirements.

## The VOSS Sources

VOSS water is generated from sources deep beneath the ground. The unprocessed nature of the water gives it its fresh, clean taste.

The purity of a water is defined in part by its mineral level referred to as Total Dissolved Solids or TDS. The TDS levels in VOSS are extremely low in comparison to other leading bottled waters and helps give VOSS its distinct crisp, clean taste.
