

The following shows approximate "safe" consumption amounts per year, based on developmental age, where arsenic was detected. Arsenic exposure beyond limits that are considered safe, can increase the risk of cancers, including lung, skin, kidney, and bladder.

* Indicated candy marketed as a healthier option.

| Candy | Company | Brand | Arsenic Parts per Billion (PPB) | Safe Consumption Limit, Per Year (approximate) | |
|-------|-----------------------|-------------------------------------|------------------------------------|--|---|
| | | | | Child | Adult |
| | Ferrara Candy Company | Black Forest Gummy Bears | 370 | 16 pieces <i>(if 1 piece is 3 grams)</i> | 40 pieces <i>(if 1 piece is 3 grams)</i> |
